

Tunnel demagnetizer TDM

Due to its dimensions and demagnetizing performance it is suitable mainly for the demagnetization of large components and workpieces, e. g. moulds, bearings, spindle etc. It is also suitable for inclusion in the conveyor-belt in automated processes.

Other dimensions and power supply available on request.

Code	Type	Specification
51.57.311	Tunnel demagnetizer TDM-1	hole size 180x180 mm, 220V/50 to 60 Hz
51.57.312	Tunnel demagnetizer TDM-2	hole size 255x255 mm, 220V/50 to 60 Hz
51.57.314	Tunnel demagnetizer TDM-4	hole size 460x465 mm, 220V/50 to 60 Hz
